The type, functions, and characteristics of marriage vary from culture to culture, and can change over time. In general there are two types: civil marriage and religious marriage, and typically marriages employ a combination of both (religious marriages must often be licensed and recognized by the state, and conversely civil marriages, while not sanctioned under religious law, are nevertheless ...

The searchable databases listed below provide access to over 1,000,000 database entries, indexing over 500,000 documents and photographs housed at the New Jersey State Archives. Database development is currently focused on post-1878 death records (now complete through June 1896), early land records, and the records of the Supreme Court.

Marriage, also called matrimony or wedlock, is a socially or ritually recognised union between spouses that establishes rights and obligations between those spouses, as well as between them and any resulting biological or adopted children and affinity (in-laws and other family through marriage). The definition of marriage varies around the world not only between cultures and between religions ...
