

innovation and market globalization pdf

Innovation can be simply defined as a "new idea, creative thoughts, new imaginations in form of device or method". However, innovation is often also viewed as the application of better solutions that meet new requirements, unarticulated needs, or existing market needs. Such innovation takes place through the provision of more-effective products, processes, services, technologies, or business ...

Innovation - Wikipedia

Globalization or globalisation is the process of interaction and integration among people, companies, and governments worldwide. Globalization has grown due to advances in transportation and communication technology. With increased global interactions comes the growth of international trade, ideas, and culture. Globalization is primarily an economic process of interaction and integration that's ...

High-performance organizations are those that are resilient, agile, and ambidextrous (O'Reilly & Tushman, 2013). They strive to build dynamic capabilities in such a way that their innovation strategies are congruous with the rapidly changing market environment through maintaining an effective balance between continuous and radical innovations (Teece, 2014).
