Australia's insurance market can be divided into roughly three components: life insurance, general insurance and health insurance. These markets are fairly distinct, with most larger insurers focusing on only one type, although in recent times several of these companies have broadened their scope into more general financial services, and have faced competition from banks and subsidiaries of ...

IR35 refers to the United Kingdom's anti-avoidance tax legislation designed to tax "disguised employment" at a rate similar to employment. In this context, "disguised employees" means workers who receive payments from a client via an intermediary, for example, their own limited company, and whose relationship with their client is such that had they been paid directly they would be employees of ...
