Development Communication Sourcebook - World Bank

International development or global development is a wide concept concerning level of development on an international scale. It is the basis for international classifications such as developed country, developing country and least developed country. There are however many schools of thought and conventions regarding, which are the exact features constituting development of a country.

Kenya has the largest, most diversified economy and the second largest population in East Africa. It also has a young, ambitious and well-educated workforce eager to contribute to the development of the country. These factors have helped the country become a leader in mobile-money and information-and-communication technology. As "the gateway to East Africa," Kenya plays a vital role as a ...

Vehicle-to-vehicle (V2V) communication enables vehicles to wirelessly exchange information about their speed, location, and heading. The technology behind V2V communication allows vehicles to broadcast and receive omni-directional messages (up to 10 times per second), creating a 360-degree "awareness" of other vehicles in proximity.
