A Tobin tax, suggested by James Tobin, an economist who won the Nobel Memorial Prize in Economic Sciences, was originally defined as a tax on all spot conversions of one currency into another. Tobin's tax was originally intended to penalize short-term financial round-trip excursions into another currency. By the late 1990s, however, the term Tobin tax was being incorrectly used to apply to all ...

International taxation is the study or determination of tax on a person or business subject to the tax laws of different countries or the international aspects of an individual country's tax laws as the case may be. Governments usually limit the scope of their income taxation in some manner territorially or provide for offsets to taxation relating to extraterritorial income.
