MICROCAPITAL BRIEF: Microfinance Holding Company ASA

International trade law includes the appropriate rules and customs for handling trade between countries. However, it is also used in legal writings as trade between private sectors, which is not right. This branch of law is now an independent field of study as most governments have become part of the world trade, as members of the World Trade Organization (WTO).

International trade law - Wikipedia

On the topic of international trade, the views of economists tend to differ from those of the general public. There are three principal differences. First, many noneconomists believe that it is more advantageous to trade with other members of one's nation or ethnic group than with outsiders.
