communication subsystems of such telemetry systems. The course is web delivered from March 31 through May 5. Text: Stephen Horan, Introduction to PCM Telemetry Systems, 2nd Ed., CRC Press. Grading: Homework (30%) and one design problem (30%) will be assigned and graded.

ECE 485C/585C Telemetry Systems: Data Transmission

Graduate Certificate in Telemetry Introduction/Purpose The Graduate Certificate in Telemetry is designed to introduce students to the basic theory as well as the application of that theory and is particularly geared toward the distance education program, working engineers to expand their expertise in telemetry.

info telemetry certificate - New Mexico State University

Afterwards, the data is sent to the computer device. The gap between each GPS data (less than 2 sec.) is used by the PIC to acquire and send the analog inputs to the computer device, this gap is a limitation factor for the data acquisition rate. The data transmission for the computer device is made by serial communication. The
