The CoSSMic consortium unites partners and leading experts from academia and industry as well as local governments to cover all stakeholder requirements.

CoSSMic | Collaborating Smart Solar-powered Micro-grids

Collaboration is the process of two or more people or organizations working together to complete a task or achieve a goal. Collaboration is similar to cooperation. Most collaboration requires leadership, although the form of leadership can be social within a decentralized and egalitarian group. Teams that work collaboratively often access greater resources, recognition and rewards when facing ...

Adaptive management (AM), also known as adaptive resource management (ARM) or adaptive environmental assessment and management (AEAM), is a structured, iterative process of robust decision making in the face of uncertainty, with an aim to reducing uncertainty over time via system monitoring. In this way, decision making simultaneously meets one or more resource management objectives and, either ...

The United States has the opportunity to transform its health care system, and nurses, as the largest segment of the nation's health care workforce, can and should play a fundamental role in this transformation. In this report the IOM makes recommendations for an action-oriented blueprint for the future of nursing.

The Future of Nursing: Focus on Education : Health and

Every agile company has agile project management tools to follow the methodology more efficient and strict. If you still doubting which one to choose or if you would like to know what are the leading ones on the market this article is definitely written for you.
