

therese the philosopher and pdf

Therese the Philosopher (Therese the Philosopher) is a 1748 French novel ascribed to Jean-Baptiste de Boyer, Marquis d'Argens. It has been chiefly regarded as a pornographic novel, which accounts for its massive sales in 18th-century France (as pornographic works were the most popular bestsellers of the time).

Therese the Philosopher - Wikipedia

First published in 1748, this novel was one of the most notorious French erotic novels of the eighteenth century; and, despite its clandestine status, a bestseller. Among its admirers was the Marquis de Sade, who said (in his *Juliette*) that it was 'alone to have achieved happy results from the combining of lust and impiety' and 'finally gave us an idea of what an immoral book could be'.

In Therese Philosophe, it's not the sex or the philosophy that are the "real" reason for the novel's existence -- it's the sex and the philosophy. Both are necessary to make the story work. Both are necessary to make the story work.
