Critical thinking is the objective analysis of facts to form a judgment. The subject is complex, and several different definitions exist, which generally include the rational, skeptical, unbiased analysis, or evaluation of factual evidence. Critical thinking is self-directed, self-disciplined, self-monitored, and self-corrective thinking. It presupposes assent to rigorous standards of ...

Thinking in Systems

Thought encompasses an “aim-free flow of ideas and associations that can lead to a reality-oriented conclusion. Although thinking is an activity of an existential value for humans, there is no consensus as to how it is defined or understood.. Because thought underlies many human actions and interactions, understanding its physical and metaphysical origins, processes, and effects has been ...
